

USER GUIDE FOR IMO-COMPLIANT ELECTRONIC CERTIFICATES FROM DNV GL

All certificates, issued and endorsed, are published in the [My DNV GL service Fleet Status](#).

It is recommended that electronic copies of the latest certificates are stored on board the vessels.

Flag acceptance is a pre-requisite for issuance of electronic certificates by DNV GL on their behalf. If DNV GL has not been granted respective Flag acceptance, the electronic certificate shall be printed and manually signed in addition.

The user guide covers the following features:

- Access the My DNV GL service Fleet Status and add a vessel to My Fleet
- Find certificates published in the My DNV GL service Fleet Status
- Verify authenticity and validity of certificates by using the UTN (Unique tracking number)
- Subscribe in order to receive new, updated or endorsed certificates by email
- Temporary sharing of electronic certificates issued for a vessel
- Compliance with the IMO FAL Guidelines

CONTACT

For clarifications, customers contact us via DATE@dnvgl.com

Verify authenticity and validity of electronic certificates by using UTN (Unique tracking number)

The validity of the documents can be checked through an authentication service by accessing <https://trust.dnvgl.com> and entering the UTN and the ship's DNV GL ID.

For certificates the validation will show whether it is currently valid, while for other documents it will show the validity at the date of issuance.

The below screenshot shows a confirmation of the validity of a certificate. Note that only certificates can be downloaded.

Document Verification

Please fill out the form below to Verify a Document:

Temporary sharing of electronic certificates issued for a vessel

This option is available only for electronic certificates.

- If you do not have a user account for My DNV GL, please request your administrator to create a user ID.
- Log in with your username and password and select the My DNV GL service Fleet Status.
- Select the relevant vessel and click on **Documents**, this opens a list of certificates and other reports.
- Click **Access**.

The screenshot shows the DNV GL Tanker 1 interface. At the top, there is a header with the vessel name and ID. Below the header, there is a navigation menu with options: Vessels, Status, Details, Requests & jobs, Follow-up, Documents, Bookshelf, and Approval. The Documents menu item is circled in red. Below the navigation menu, there is a green banner with a message: "DNV GL has started using electronic signatures on Fleet in Service documents. Please click [here](#) for more information." Below the banner, there is a table with columns: Id, Title. The table lists various certificates: Main Certificates (26), CCC (Invalidation of Certificate), CLCE (Classification Certificate), TMC (International Tonnage Certificate (1969)), REC-RR-C (Certificate of Compliance for Ready for Recycling), SPSSC (Special Purpose Ship Safety Certificate), and IDG-IC (Document of Compliance for the Carriage of Dangerous Goods). To the left of the table, there is a button labeled "Access..." with a lock icon, which is circled in red.

If you do not see any codes, click **Generate access codes**.

- Enter the email to whom you want to share the certificates.
- Click **Send** to complete the process, and the message on the box on the right will be sent to the recipient. You can also add text.

The recipient will be able to view and download the certificates during the timeframe indicated.

The screenshot shows the "Temporary access to vessel certificates" dialog box. At the top, there is a button labeled "Generate access codes" which is circled in red. Below the button, there is a form with fields for "From:", "To:", "CC:", "BCC:", and "Subject:". The "From:" field is filled with "noreply@dnvgl.com". The "CC:" field is filled with "Arun.Sethumadhavan@dnvgl.com". The "Subject:" field is filled with "View certificates for DNV GL Tanker 1". At the bottom of the dialog box, there are two buttons: "Send" and "Close".

The screenshot shows the "Temporary access to vessel certificates" dialog box. At the top, there is a title "Temporary access to vessel certificates" and a close button. Below the title, there is a message: "The Access Codes provide temporary access to the status and download of all electronically signed certificates for the vessel." Below the message, there is a list of access codes with radio buttons: "2017-10-A31XD1 is valid until 2017-10-20" (selected), "2017-10-192V6C is valid from 2017-10-16 until 2017-10-25", "2017-10-5ZVAWW is valid from 2017-10-21 until 2017-10-30", "2017-10-27DQZ9 is valid from 2017-10-26 until 2017-11-04", and "2017-10-293HQX is valid from 2017-10-31 until 2017-11-09". Below the list, there are three buttons: "Show more codes", "Get codes as Pdf", and "Revoke". Below the buttons, there is a form with fields for "From:", "To:", "CC:", "BCC:", and "Subject:". The "From:" field is filled with "noreply@dnvgl.com". The "To:" field is filled with "Arun.Sethumadhavan@dnvgl.com". The "Subject:" field is filled with "View certificates for DNV GL Tanker 1". Below the form, there is a message: "You have been granted access to check the validity and view all electronic certificates issued by DNV GL for vessel DNV GL Tanker 1. Please go to trust.dnvgl.com and enter the following credentials: Temporary Access Code: 2017-10-A31XD1, Vessel ID: 28573. The access code is valid from 2017-10-11 to 2017-10-20." Below the message, there is a large empty text area. At the bottom of the dialog box, there are two buttons: "Send" and "Close". The "Send" button is circled in red.

Compliance with the IMO FAL Guidelines

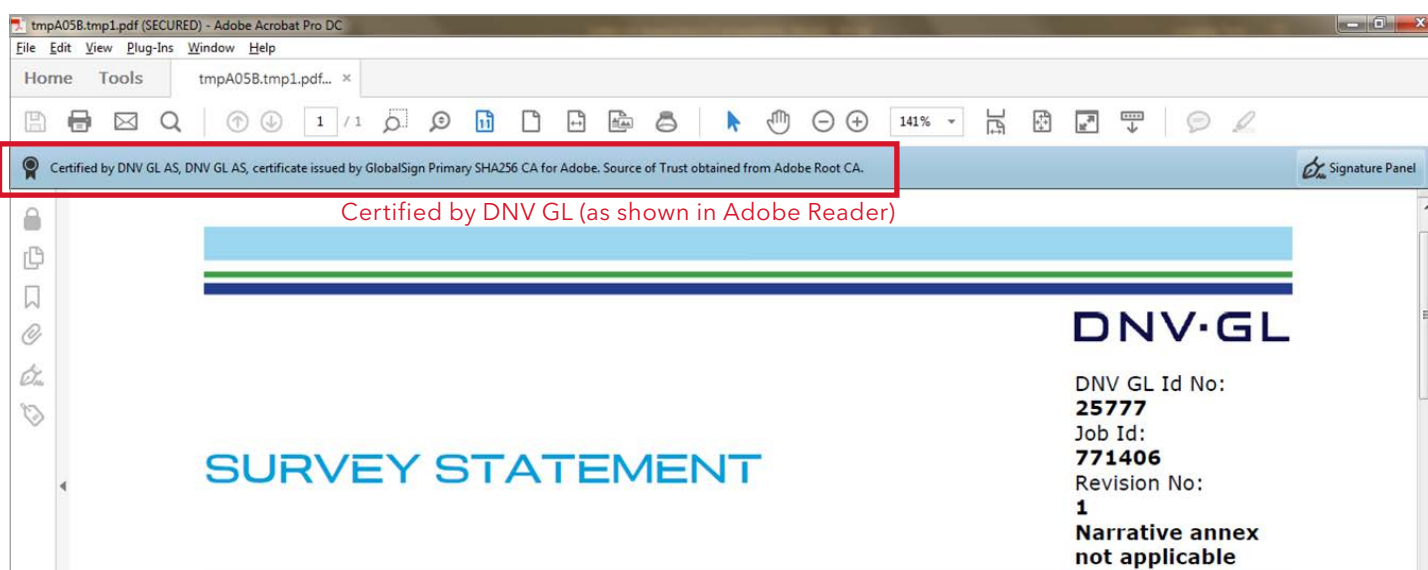

The electronic signature solution used by DNV GL for signing satisfies the requirements stated in FAL.5/Circ.39/Rev.2 (Guidelines for the use of electronic certificates), as follows:

The electronic certificates are consistent with the format and content required by the relevant international convention or instrument.

The document is protected from edits, modifications or revisions other than those authorized by DNV GL.

The signature panel is shown at the top of the document viewer. If a document is tampered with it will show as an explicit text. Please note that this is how Adobe Reader is showing the signature. Other pdf viewers may show this differently, and it is recommended to use Adobe Reader which can be downloaded free of charge from <http://www.adobe.com/products/acrobat/readstep2.html>

Example if the document is electronically signed and content is not changed:

The documents carry an electronic seal and a Unique Tracking Number (UTN) for the purpose of checking their validity and authenticity.

for **DNV GL**

This document is signed electronically in accordance with IMO FAL.5/Circ.39/Rev.2. Validation and authentication can be obtained from trust.dnvgl.com by using the Unique Tracking Number (UTN): n1026982-dqm and ID: G107904
